GO KART · SKU AX-EV-HCT

Hellcat Electric Kart

Muscle-car inspired open-top electric kart: 3000W motor, 72V 50Ah lithium battery, up to 80 km/h, premium red interior, single or two-seat.

MOTOR	TOP SPEED	BATTERY	SEATS
3000W	**80 km/h***	**72V 50Ah lithium**	**Single or two-seat**

The **Hellcat Electric Kart** is our **muscle-car electric go-kart**. It has a long bonnet with twin scoops, **quad round headlights**, a deep front grille and a **full-width tail light**, finished in gloss black with a **premium red interior**. It is open-top, has **3000W** of electric power and a stated **80 km/h** top speed, and it is built for people who want their go-kart to look like an American muscle car.

Watch the video on this page to see it lit up and driving.

The multiple-unit price applies automatically in your cart once you reach the qualifying quantity. Shipping is calculated separately.

Key features

Muscle-car attitude. A long bonnet with twin scoops, quad round headlights and a full-width tail light give it unmistakable muscle-car presence.

3000W, 80 km/h. The same 3000W output as the GT3, with a stated 80 km/h top speed from a 72V 50Ah lithium battery.

Premium red interior. Red sports seats against a gloss-black body. It is the signature look of this model.

Open-top cockpit. Easy access, open-air driving, and plenty of drama for photos and video.

Single or two-seat. Choose a solo or two-seat layout before production.

Fully customisable. Seven standard colours included, plus custom paint, liveries and logos at extra cost.
